**HOME-GROWN STRAWBERRIES.**  
Colonel R. B. Lovel has the First of This Season's Fine Fruit.

He leads.  
First in all things, Hon. R. B. Lovel, the leading grocer, favored The LEADER yesterday with a couple of baskets of the first home-grown strawberries of the crop of 1899.

They are from the farm of Mr. R. B. Lovel near Vanceburg, who has supplied Mr. Lovel regularly for the past eighteen years with the largest berries to be had in this market.

The success of Mr. Lindsey shows what may be done when one moves intelligently in the right direction.

Twenty-five years ago he went to Vanceburg with no other possessions than a mule and \$50.

With the latter he bought some land, paying \$5 per acre, and on which he began the cultivation of strawberries.

He is now reckoned as one of Lewis county's most substantial citizens and his worth as a business man is testified by Mr. Lovel, who has been dealing with him continuously for eighteen years, during which there has not been the slightest disagreement.

Hay's Rainbow Mixed Paint is guaranteed. See notice elsewhere of parties owing estate of the late H. H. Hill.

**MAY COURT DAY.**  
Pretty Good Attendance—Stock Sales Very Satisfactory.

**JANUARY PARK DEDICATED.**  
Yesterday was the second good time Court Day Maysville has had in several years.

There was quite a large crowd of visitors in the city, as the business at the livestock sales during the day proved.

The stock sales, the main feature of Court Day, were well attended and trading was brisk. Prices offered by buyers were higher than usual and a good amount of live stock changed owners.

Auctioneer George Goggin reports the following sales, the best in five years:

25 cattle, per head.....\$25 15  
1 cow.....25 00  
1 cow.....25 00  
1 cow.....25 00  
1 small heifer.....10 00  
1 small heifer.....10 00  
5 sheep.....40 00  
5 sheep.....40 00  
1 horse.....50 00  
1 horse.....50 00

In the morning Prof. Gentry had a parade of his fine ponies and dogs and later gave two exhibitions at the Ball Park.

The Maysville Band was out in force, rendering a number of selections. The Maysville Street Railway very generously placed a car at the disposal of the band, the members taking a trip over the line, giving the residents the benefit of their choice music.

The visitors were very well pleased with the treatment they received from the merchants, realizing that the latter are placing in their reach the best that any market affords and at as reasonable a price as can be given.

There was another balloon ascension, "Black Diamond" being the ascension.

The success of the entire day was due to extensive advertising, backed by the Board of Trade.

With the fact constantly before the public that some attractions out of the ordinary are to take place, with the merchants working uniformly for a common good and with ample accommodations for entertaining all who may come, there is no reason why Maysville Court Days should not become a fixed date on the calendar of engagements of the farmers in this section as the time for replenishing their stockyards, stables and households.

The Board of Trade has already done much good for the building up of the business in the city.

**JANUARY PARK.**  
Maysville has at least one public Park, small though it may be, to which our people in years to come may point with pride.

The principal credit for this is due to one of the city's pioneers, Mr. Samuel January, who more than a half century ago set apart this plot for public use forever.

More recently and more directly the credit must be given to Mr. George W. Crowell, the enterprising Councilman from the Fifth Ward, whose individual efforts, seconded by the necessity for which the people of that locality are noted, have resulted in carrying out Mr. January's original desire, that the place should be made indeed a Park and not left as part of the commons.

The grounds have been inclosed by a wire fence, walks have been laid out, trees and shrubs planted, seats provided and a handsome bandstand erected in the center.

Amid these environments at 4 o'clock yesterday afternoon the Park was formally dedicated.

A procession, headed by Captain George W. Rudy's Drum Corps and embracing "Old Zollie" and "Old Union" and when opposite the Park the cannon was unlimbered and a salute fired.

Meanwhile the Drum Corps took its position in the bandstand and regaled the audience with martial music.

A brief dedicatory address was delivered by Mr. Thomas A. Davis, who congratulated Mr. Crowell on his public spirit, and hoped that it would be an incentive to others to go and do likewise.

These ceremonies closed the formal dedication of January Park, which in the years to come will be a pride and pleasure to the people who live in that neighborhood.

The forward wheat is looking well. Crushed fruits at Hay's Soda Fountain Store have been appreciated at 4c.

The National Afro-American Council of the United States has issued a proclamation calling upon the Negroes of this country to set apart Friday, June 23, as a day of fasting and prayer.

Herbine will help digest what you eat and give you the clear, bright, beautiful skin of health. Price 50c and 25c. J. James Wood & Son.

The will of the late Mrs. Emily G. Gray was yesterday admitted to record. It is a voluminous document, disposing of a handsome estate by far the largest, next to that of the late Mrs. J. W. Wood, of this city, and most valuable collection of bric-a-brac ever possessed by any one in this city. The estate is left to her next relative, and various articles of bric-a-brac are given to intimate friends.

I consider it not only a pleasure but a duty I owe to my neighbors to tell about the wonderful cure effected in my case by the timely use of Chamberlain's Cough, Croup and Diarrhoea Remedy. I was taken very badly with a cold and procured a bottle of this remedy. A few doses of it effected a permanent cure. I take pleasure in recommending it to others suffering from that dreadful disease. J. W. L. Wood, Jr., N. Y. This remedy is sold by J. Jas. Wood & Son, Druggists.

The A. O. U. W. will meet this evening at G. A. Hall, corner of Third and Main streets, at 7:30 o'clock. All members are requested to be present; business of importance.

R. H. Wallace, Recorder.

About 2,200,000 bushels of coal are shipped annually from Pittsburgh to Southern markets.

Captain Oscar Barrett has three barges sent up at his wharf at Levanon, and work is progressing nicely.

The rains of the past few days will no doubt have a good effect upon the river, as it is now at a stage when very little rain is necessary to cause a rise. At Pittsburgh yesterday it was falling, with about 3.5 on the marks. It was, however, rising from Point Pleasant down, which will make a nice addition down this way.

The Tacoma, noted for being one of the newest and elegant boats on the river, is being repaired throughout. Captain Hosen has a painter hired by the month, and keeps him at work on the Tacoma. All the state-rooms on the boat have just been painted a snowy white, and new bedding has just been added to the Tacoma's outfit. She is in the Cincinnati-Ohio trade, and has all the business she can attend to.

The boilers of the wreck of the towboat Charlie McDonald's new beginning to show out of water, and at least low water the wreck of the boat will almost come out. It will be a comparatively easy task, therefore, to assist the business in doing its work. **8100—Reckard—\$100.**  
The reader of this paper will be pleased to learn that there is at least one dread disease that is being cured by the use of the Reckard system, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address,

**An Epidemic of Whooping Cough.**  
Last winter during an epidemic of whooping cough my children contracted the disease, having severe coughing spells. We had used Chamberlain's Cough Remedy very successfully for croup and naturally turned to it at that time and found that it relieved the cough and effected a complete cure. I bought a bottle of Chamberlain's Cough Remedy, N. Y. This remedy is for sale by J. Jas. Wood & Son, Druggists.

**Reduced DRESS GOODS!**

Telling the truth—as one amongst a good many shouters—has its drawbacks, seemingly. When we say we have a desirable line of dress stuffs at 30c, a yard you think of some deferred lines at those prices and doubt their worth and style. No, we mean that we sold these same goods at 60c a yard. That's different. And so some of the summer goods coming—the very newest from the looms—are no better in style and quality. They are in vogue and they wear. Mostly all wool, a few with silk mixture but no cotton shoddiness among them. Nearly all the spring shades represented.

**Our Notion Stock!**

## MASSILLON FIRE.

The Russell & Co. Mammoth Thresher and Engine Plant Destroyed Monday.

THE LOSS HALF A MILLION DOLLARS.

A Volunteer Fireman Was Killed by a Falling Wall and a Workman Was Probably Fatally Injured.

Canton Was Wired for Assistance But Answered Too Late. The Flames Arised From the Burning Building Have Seen Eight Miles Away.

MASSILLON, O., May 9.—The largest conflagration in the history of Massillon swept Russell & Co.'s mammoth thresher and engine plant Monday night, destroying property valued at fully \$500,000. The fire started in the warehouse at 8 o'clock, and in spite of the efforts of the various hose companies gained steady progress. In this structure was fully 300 finished machines, and all were consumed. Canton was wired for help, but the answer was too late to be of any help. The machine shops were saved.

Albert Bamberger, a volunteer fireman, was killed by a falling wall. In the same catastrophe, Christian L. Haatz, a workman, was probably fatally injured. Both were in a gangway between two buildings and were buried beneath tons of bricks and burning timbers. The rescuers rushed to the rescue and finally recovered the bodies. The heat was so intense that the rescuers were fairly blistered, although constantly drenched with water. Bamberger's body was terribly mangled, while Haatz was taken out alive. Both his legs and side were crushed. His recovery is doubtful. Both are men of family.

The company can not estimate their loss, but insurance only partly covers it. The cause is unknown. The flames arising from the buildings were plainly seen in Canton, eight miles distant, and hundreds covered the distance on their wheels. Special trains were also run in.

The rescue of the dead was most daring, the men working like beavers under a tottering wall, a portion of which fell, just missing several of the party. Bamberger was the fifth of a family of seven sons to meet a sudden death.

## A MAYOR HORS- WHIPPED.

Miss Minnie Crawford Led in Wait for John R. Cassidy at Bellefontaine and Inflicted Punishment.

BELLEFONTAINE, O., May 9.—Mayor John R. Cassidy was horsewhipped Monday afternoon by Miss Minnie Crawford, a milliner, on the main street of the city. Miss Crawford had recently been subpoenaed as a witness in the mayor's court and had failed to respond. She became angered at the mayor and Monday she lay in wait for him as he was going to his office. Drawing a whip from under her cape she lashed the mayor over the head and shoulders, forcing him to take refuge in a drug store. Miss Crawford was permitted to walk away and she has not been arrested.

It is supposed that the spring floods had weakened the structure.

## DID NOT HEED THE WARNING.

Interesting Account of the Death of Prince Ludwig Von Lowenstein, Who Was Killed in the Battle of Calocoon.

SAN FRANCISCO, May 9.—C. S. Bradford, of this city, has just returned from the Philippines and gives an interesting account of the death of Prince Ludwig Von Lowenstein, who was killed during the battle of Calocoon on Sunday, March 26.

A party of civilians, among whom were Mr. Bradford and the prince, were observing the progress of the battle from a stone bridge over the Malabon river when an orderly appeared, warning the sightseers of the danger of their position. The orderly then addressed himself to the prince personally, saying: "I am speaking to you particularly. You have already given us some trouble by hanging around the firing line, and we will have no more of it."

The prince and his companion disappeared into a clump of timber. This timber later became the scene of some active work, and the prince and his companion were ordered to fire volleys into it and to perforate several houses. In one of these Prince Lowenstein had secreted himself. A bullet fired by an Oreganoon entered the right side of the prince, severing the intestines, killing him instantly. Mr. Bradford with two others, took charge of him. A search of the body revealed, among other things, a passport signed by Aguinaldo, granting the prince permission to enter the lines of the rebels at will and instructing insurgent officers to give him any aid and comfort they might desire. The prince was a one time interpreter for Gen. Miller, but was found untrustworthy.

## ENGINE'S TERRIBLE FALL.

It and a Construction Car Drops 300 Feet Into a Ravine on Lookout Mountain.—One Man Is Injured.

CHATTANOOGA, TENN., May 9.—An engine and construction car of the Lookout Mountain Railway Co. were precipitated Monday afternoon over a cliff from a point under the palisades near the top of Lookout Mountain down a ravine a sheer depth of 300 feet. The train was engaged repairing the trestle over this ravine. A heavy timber was swung out over the trestle from the car, which was so heavy that it wrecked the engine and car from the track. Superintendent Derrikscon, of the company, was on the engine with the engineer, and in making a jump for safety he missed his footing and fell 20 feet, breaking three ribs and sustaining other injuries, not, however, deemed fatal. Engineer, Bremen and trainmen escaped.

## MONNETT FILES ANSWER.

He Says Charles B. Squires Offered Him the Right to Dismiss the Suits Against the Standard Oil Co.

NEW YORK, May 9.—The Press says: In a statement to the Press Monday night, Charles B. Squires said: "If Attorney General Monnett, in his statement to the court, Ohio, said that I offered him a bribe, as representing the three men he mentions, it is absolutely and unqualifiedly false."

## A DARING TRICK.

The Filipinos Surpris the United States Forces at San Fernando, on Sunday.

## PART OF THE RAILWAY TRACK TORN UP.

They Boarded the Train and Steamed Away Before There Was Any Opportunity to Capture Them.

Towns of Sosomon and Ganga Captured by Gunboats.—At the Former Place a Number of Filipino Flags and a Quantity of Arms Were Captured.

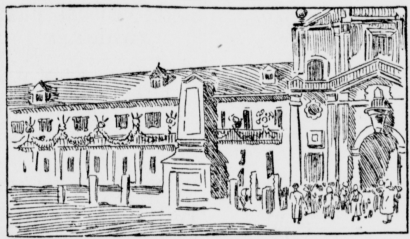

MANILA, May 9.—The Filipinos surprised the United States forces at San Fernando with a daring trick on Sunday. A railway train with an engine at each end was run almost to the American outposts and in plain sight of the town. Before they could be reached a gang of natives armed with the train, tore up several lengths of the railway track, boarded the train again and steamed away so quickly that there was no opportunity to capture the raiders.

The Nebraska regiment is asking for a temporary relief from duty. Only 375 men of this regiment are left at the front.

The army's gunboats Laguna de Bay and Cavanga, under command of Capt. Grant, which started up the San Fernando river for Guagua Sunday, was presumed, to establish there a base of supplies for the troops engaged in the northern campaign, returned Monday. Maj. Gen. MacArthur failed to connect with the expedition.

The gunboat found rebels entrenched at Sosomon and Ganga, on the water fronts of the towns. The vessels steamed past the works, shelling the occupants and driving them out. Landing parties from the boats entered both towns, capturing at Sosomon a Spanish captain in uniform, who was ostensibly a prisoner in the hands of the rebels and also a native officer. Arriving at Guagua, the town and a

At Sosomon, the party captured a number of Filipino flags and a quantity of arms, chiefly bolos and bows and arrows, besides a lot of band instruments, which the men played as they marched back to the boats.

Capt. Grant's expedition will probably return up the San Fernando river after having been re-inforced, on recently purchased light draft Spanish steamers.

#### DECORATION DAY.

Hon. R. C. Burns of Cattsburg to Be the Orator in Maysville.

Decorating the graves of the Union and Confederate dead will be fully observed Tuesday, May 30th, and to that end the Hon. R. C. Burns of Cattsburg has accepted an invitation to deliver an address.

Everybody is invited.

All comrades of the G. A. R., old ex-officers, both Union and Confederate, the city ex-officers, schools and secret societies, and the soldiers of the Spanish-American War of Mason and adjoining counties have agreed to turn out with Joseph Heiser Post No. 18.

The ancients believed that rheumatism was the work of a demon within a man. Any one who has had an attack of so-called inflammatory rheumatism will agree that the affliction is demonic enough to warrant the belief. It has never been claimed that Chamberlain's Pain Balm would cast out demons, but it will cure rheumatism and hundreds have testified to the truth of this statement. One application relieves the pain, and the quick relief which it affords is almost worth many times its cost. For sale by J. A. Wood & Son, Druggists.

#### FOR THE FARMER.

Superintendent Smoot Addresses Them a Letter in Their Own Behalf.

It is the wish of the Superintendent of Roads for the Western Division to have men at work on all the roads in his division within the next fifteen days. In order to do this, and give those most interested—the farmers—an opportunity to assist in the repairing of the roads, your Superintendent would suggest that they agree to furnish rock at quarry, or on the line of road as shall be most satisfactory to them, they hauling the rock, or allowing the contractor to do so, and receive such remuneration as shall be just and reasonable. By co-operation a great deal can be accomplished in a short time. Our roads can be made an ornament to the county and credit to the people, and instead of an increased tax rate, as some fear, it can be considerably reduced and all will be benefited. Let's all pull together. Help your Superintendent as far as possible, and you will gain thereby.

Your Superintendent would, therefore, ask all those farmers and others who can furnish rock along the lines of the roads in his division to communicate with him at once, they to have the privilege of furnishing and hauling the rock on the roads at an agreed price, or allowing the contractor to haul them. Farmers, let us hear from you at once, as it is to your interest as individuals as well as to the county. Yours most respectfully,

W. P. SMOOT.

Superintendent Western Division.
